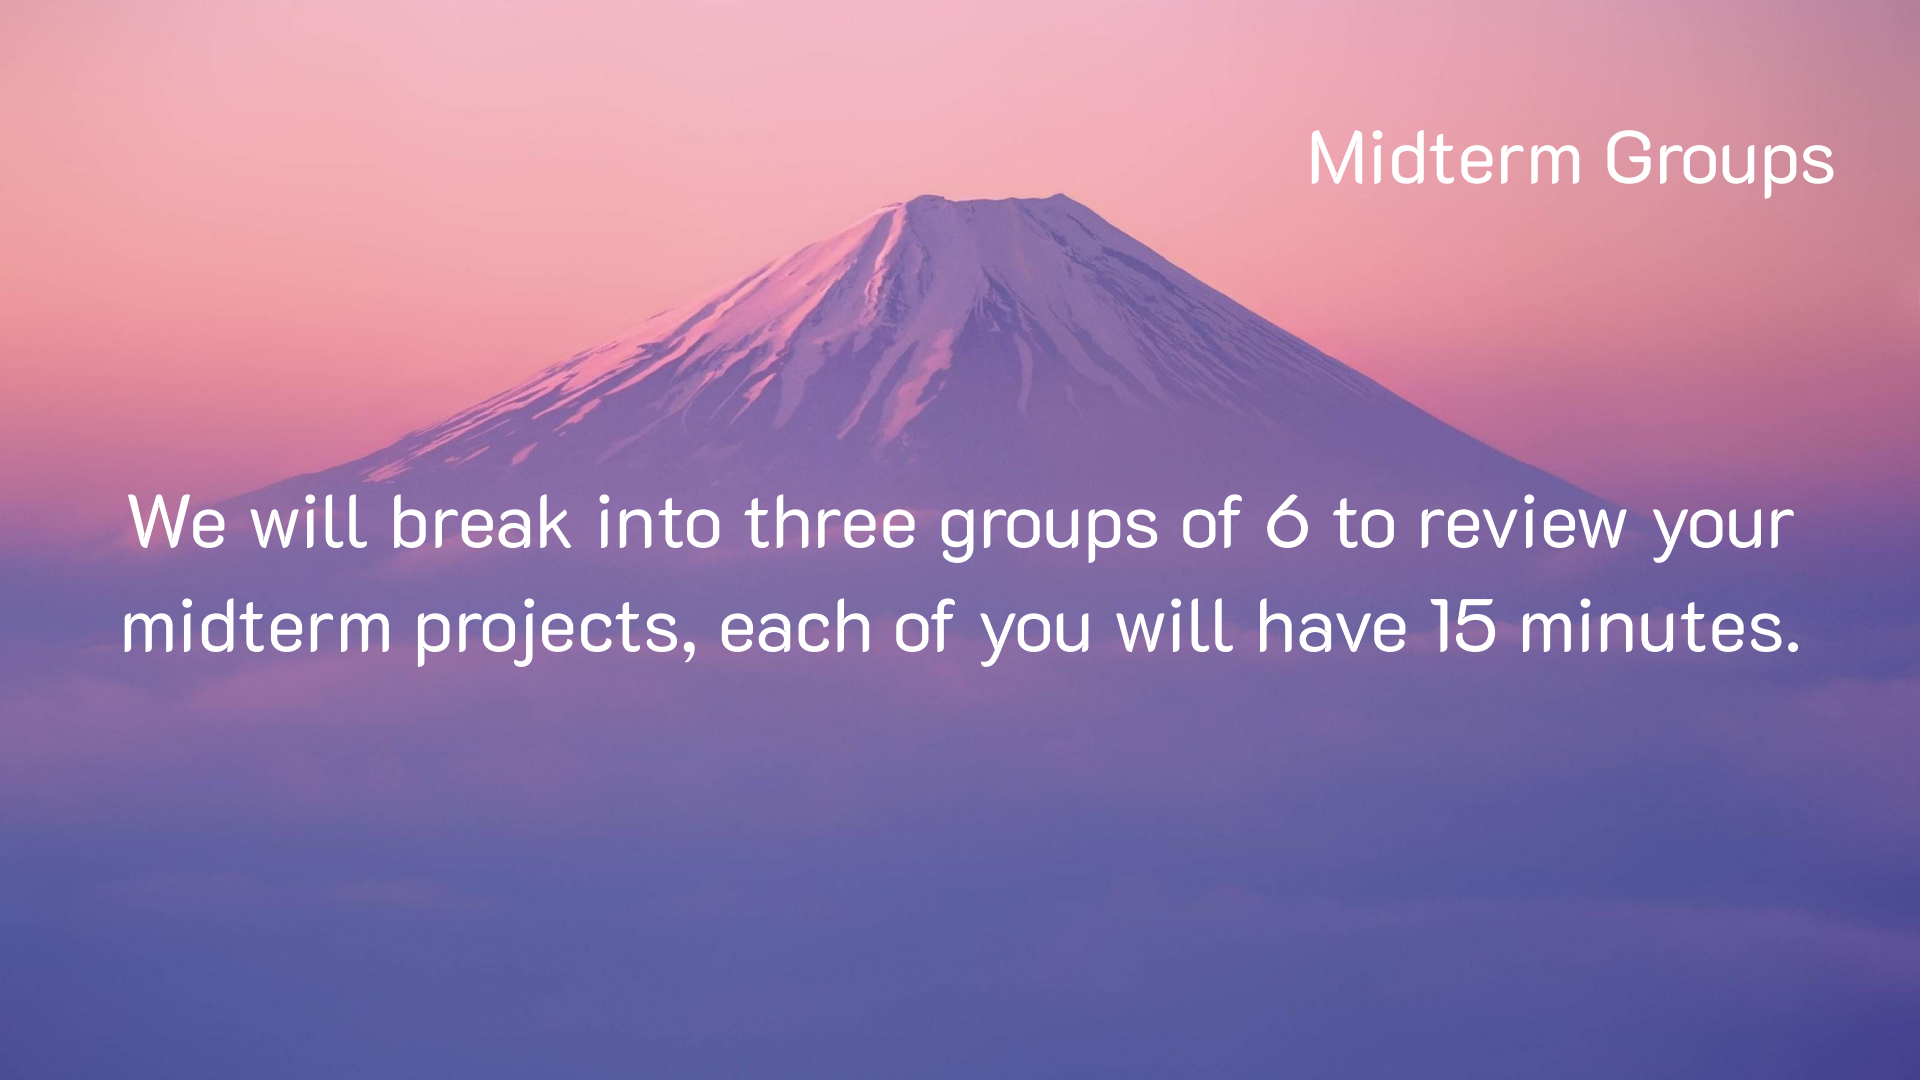
MIDTERM
TIME!

Midterm Groups



We will break into three groups of 6 to review your midterm projects, each of you will have 15 minutes.

Midterm Groups

You will first share your URL with the group and let them browse on their own laptops, with no explanation, as you take notes on their experience.

Observe how they interact with the site and reflect.

(5 minutes)

Midterm Groups

When feedback is being offered, allow each person to speak without interruption. You are to simply receive the information.

Midterm Review Questions

- Is the concept evident? Is it clear what this site is about? If so, why? If not, why not?
- Is the site well organized? Does the layout and navigation make sense? If so, why? If not, why not?
- Has attention been paid to spelling, alignment, image preparation/resolution?
- What are the strongest elements? What would you recommend to strengthen the site?

Midterm Groups

Next, you will explain your site and demonstrate how you made it. Use the inspector view or your source code if necessary.

(5 Minutes)

Midterm Groups

Lastly, you will take questions and any additional feedback from your fellow group members.

MIDTERM ASSESSMENT PAPER

Midterm Groups

You will write a midterm self-assessment paper and email it to me along with the notes you took during today's class.

Midterm Groups

“ Reflection is studying your own practice as seriously as you study anything. It involves thinking about why, what, and how you create something. In any learning situation you should study beforehand, make/do, reflect, adjust, and do it all over again. Learning happens in a cycle. ”

Midterm Groups

Write a narrative midterm self-evaluation that is a bare minimum of 2 complete paragraphs.

(You certainly may write more.)

Midterm Groups

Synthesize what you are noticing in your notes, assignments, etc. with regard to your learning.

Your assessment should have a minimum of three citations from lectures, weekly discussions, and/or tutorials.

EVERYTHING IS DUE BY NEXT CLASS.
