PRESENT MIDTERM PROPOSALS

Tensions Exercise cont.

As you reflect on your moodboard and
your responses to the exercise
try to remember a few things...

Think about your entire project holistically, let your responses to the tensions exercise effect every aspect of your design.

Taking a "50/50" approach to a tension can often be an appropriate direction.

However— do not think of 50/50 as the middle-ground, but rather as both extremes at once.

CSS GRID

(your new friend)

HOMEWORK

Complete the CSS Grid Garden exercise:

(**http://cssgridgarden.com/**)

Homework

Review the CSS Tricks "A Complete Guide to Grid"

(https://css-tricks.com/snippets/css/complete-guide-grid/)

Homework

Continue moodboarding and exploring references for your Midterm project as you begin coding it.

Explore using CSS Grid- I <u>highly</u> recommend it.
